# Bridgemates

North (or South) is responsible for entering the contract & result into the Bridgemate, and East (or West) must be shown it to verify its accuracy by pressing the ACCEPT button.

It is best to enter the contract, declarer and lead at the end of the auction – this saves time, reduces the risk of entering the wrong board number, and ensures the lead is fresh in your mind.

Results should be entered before the next board is played, East or West must be allowed to accept the result, and both sides should have the opportunity to review other scores.

It is an offence to attempt to access the TD screen or change a score in the Bridgemate without calling the TD.
